IMPROVING SERVICES  
IMPROVING LIVES

# *DI and Social Care Policy in Europe*

*June 15 Riga*

*L. Zelderloo*

*Co-chair EEG*

*Sec. General EASPD*

*[www.easpd.eu](http://www.easpd.eu)*

# Preliminary remarks

- From a blaming language towards positive models
- Re-training professionals
- Change in funding systems
- Co –production model
- Innovative Quality Assurance systems

# Model 1 ELOSH ( European Core Learning Outcomes for Supported Housing)

Key elements:

- Partnership : housing sector ,DPO , provider
- Training and awareness raising
- Bottom-up

More info: [www.easpd.eu](http://www.easpd.eu)

Objective : Structural change in the  
service provision system by 2017

Key elements:

- Funding to PWD
- Responsive services
- Organised Quality control of service and staff

# Model 3 Community Building Projects

Objective: bring the expertise to mainstream sectors

Key elements:

- ✓ New client= mainstream
- ✓ Invest in relations outside the sector
- ✓ Sharing attitude

# Development of support networks

Objective : activate all resources available

Key elements:

- Build around and with a person
- New relation formal and informal care
- Flexible coaching

# Lessons learned

1. Outreaching attitude
2. Committed and responsive staff
3. Flexible funding and regulatory frameworks
4. New relation PWD-support organisation

## *Question*

DI is not about PWD, aging citizens or children...  
it is about the type of society we want to live in.  
Real DI will only happen in a society valuing  
diversity. The real challenge is to create the right  
conditions avoiding institutionalisation.

THANK YOU FOR  
YOUR ATTENTION
